

4G LTE Router 300

Share your 4G LTE Internet connection in any place with any device!

Do you have a low-speed Internet connection at home? Or do you need a second one for specific usages? Do you need a high-speed Internet connection in your secondary house or in your van?

Then our 4G LTE Router 300 is exactly what you need!

Just insert a SIM card from any operator and immediately enjoy your Internet connection at speeds up to 150 Mbit/s. Speed and coverage depend on the operator and its service network. No configuration required, no mandatory subscription. Select any operator of your choice.

Share your high-speed Internet connection with any Wi-Fi device at speeds up to 300 Mbit/s and connect any wired devices such as computer, Smart TV, game console or set-top-box to the Internet through one of 4 Ethernet ports.

The product includes 2x external detachable antennas for an improved 4G LTE performance and also 2 SIM card adapters to fit with any size of SIM cards.
