Installation
1. The wall on which the camera will be installed should be able to bear at least 3 times the total weight of the camera
2. Please install the camera according to the instruction written on the positioning sticker.

Download and install the APP for IOS
& Android devices

Using the image below scan the QR code using your mobile device.
The link will take you to the Apple APP or Google Play Store where you
will find "Vision by STRONG". Alternatively visit the Apple APP or Google
Play Store and search for "Vision by STRONG".
Download the APP onto your Apple or Android device.

First Time Camera Installation

- Open up the "Vision by STRONG" APP on your mobile device.
- Scroll down and select your Country
- You will now see a "Signing Up" page.
- If this is your first time install AND you do not have an account then follow these steps
  - 1. Enter your email address on the top line.
  - 2. Once entered select "SEND" on the second line and wait for a one time code to be sent to your email address.
  - 3. Once you have received the code, please enter it on the second line of the sign in page.
  - 4. Please tick the box to acknowledge you have read the USER SERVICE AGREEMENT.
  - 5. Click NEXT
- You will now be asked to enter a secure password and then retype it to confirm. Follow the onscreen instructions and click "CONFIRM".

- You will need to record and keep this password safe as it will be needed for future use of the APP.
- The next screen you see will be the account login screen.
- Enter your email address and your newly created password.

- Remove the camera from the packaging.

To connect the camera:
- With a POE power supply, connect the camera directly to the NVR
- Or plug the PSU into the mains and connect the camera to the PSU. Connect the camera to the internent via a router/switch or NVR.
- In the APP select "ADD A DEVICE" and follow the instructions.

Power supply not included

- Once completed you will be asked to choose a name for your camera.
- Once done select "COMPLETE".
- You are now able to access all the features the camera has to offer.

# Connect to the NVR

1. Connection

Connect the camera(s) and the NVR to the same LAN (Local Area Network), see below for the basic topology diagrams.
