The latest enhancements for satellite TV in HD and Ultra HD!

SRT 7840 gives you a rich home entertainment experience with ultra-high definition picture clarity, movie theatre experience of surround sound and the convenience of great features. tivùsat, the Italian Free-to-Air satellite platform for national DTH channels, offers a huge line-up of national and international channels, 40 of them in HD and 4 channels in 4K UHD! Accessing tivùsat is simple. All you need is a satellite dish pointed at Eutelsat Hotbird 13° and a tivùsat smartcard that can be activated in a few minutes! Furthermore, the plus of SRT 7840, in addition to being 4K UHD, is the built-in Wi-Fi. The built-in Wi-Fi allows the connection of the receiver to the Internet without additional cables or optional devices. A highlight is given by the HbbTV based tivùon! application which is accessed by just pushing the tivùon! button on the remote control. Scroll through weekly programmes with the TV guide for the best entertainment, movies, series, documentaries and more. The last 7 days function allows you to roll back on many channels from the past 7 days to catch up a missed programme. You will also get daily top TV picks of what to watch this week. Fun and variety in the easiest way!
