Digital Terrestrial HD Twin Tuner Receiver

SRT 8222

Great convenience and flexibility

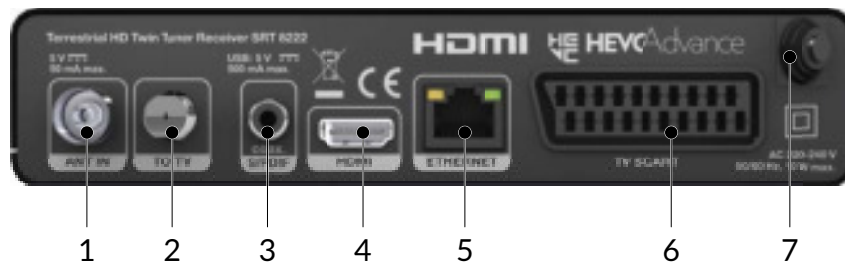

The HD receiver for terrestrial Free-To-Air TV and radio programmes offers you enhanced TV entertainment and convenience. Thanks to its twin tuner technology you can watch one programme while you record another one to an external storage device. Via the built-in USB port you can also play back video and music files or view photos on your TV. Furthermore, the receiver is equipped with a 7 days Electronic Programme Guide for onscreen programme information and comfortable booking of timers. Favourite lists for sorting of channels individually, Teletext, full multi-lingual subtitling and audio track support and much more ensures a great viewing experience.

- HDTV receiver for digital DVB-T2 Free-To-Air TV and radio programmes via outdoor or indoor antenna¹
- Twin Tuner Technology: watch and record at the same time
